

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. The Records of Burials in the "God's Acre" and "Church of the Holy Trinity," Stratford-upon-Avon, from 26th March, 1558, to 20th March, 1652-3, occupy 145 pages of the first or oldest volume of the Parish Registers (described in the volume of Baptisms issued as No. VI of the publications of the Parish Register Society, in 1897), and are of very great interest when we consider that they give us the names of many venerable inhabitants of Stratford-upon-Avon and its hamlets, with whom Shakespeare must have been familiarly acquainted, whose lives and memories extended into the stirring times of the reigns of Henry VIII, Henry VII, Richard III, and, it is just possible, even into that of Edward IV, but at any rate there would be some among them possessing a valuable store of historical information of those and even earlier periods, which the Poet would eagerly acquire and store for future use.

The information so frequently given as to the occupation or social position of the departed will be especially interesting and useful to genealogists.

The entries connected with the Burials of Members of the Shakespeare family are, of course, of very great value, but I venture to call attention to a name which has hitherto claimed but little attention from Shakespeareans, that of the Rev. John Bretchgirdle, who was Vicar of Stratford-upon-Avon from 1561 until his decease in June, 1565. With regard to him, I think it not at all unreasonable to conclude he must have officiated at the baptism of the Poet, and I am therefore hoping to be able to issue some details of his life and work which cannot fail to be of Shakespearean interest.

There are many other names of Stratford worthies in this old death roll and much information respecting them at hand in the Birthplace and Corporation Collections, but I regret that the opportunity does not in the present instance offer itself to give further details from those records; for, in the words of Mr. George M. Trevelyan, "Through these alone can all the dead live so that the living may see them where they stand."

RICHARD SAVAGE.
